

本公司所生產之聚丙烯產品，均儲存於具有良好防護設備的倉庫，產品包裝完整，且儲存環境合宜(溫度<40°C、濕度<80%)，其有效使用期限至少 2 年。唯客戶端之儲存環境未必都能符合此環境條件要求，因此建議客戶自購入聚丙烯膠粒產品後，6 個月內應使用完畢。

The TAIRIPRO PP produced from FCFC are all stored in a warehouse with good protective equipment, packaging integrity, and appropriate storage environment (temperature <40°C , humidity <80%), its shelf life for at least 2 years. However customer's storage environment conditions might not fully follow this requirement, it is recommended that customers from the acquisition of polypropylene pellets should be used within six months of completion.
